

★ Adopt Me! ★

Petfinder.com

Meet Abby! She is a 50 lb chocolate/white American Pit Bull Terrier, 5 years old. Abby was raised by a single gal for 5 years who had to give up Abby when she became homeless. SPOT rescued her and we're working to find her a just-right home. She's charming and sweet, walks great on a leash (better than my own dogs) and is very people friendly. SPOT has several "mature ladies" as volunteers who walk Abby and interact with Abby and they all love this dog and report that she is well behaved. She is spayed, micro-chipped and up to date on all vaccinations. Her adoption fee is \$150 and she comes with a training

session too. She is an energetic and athletic dog and would make an excellent running/jogging or walking partner. Her new family could enroll her in agility classes and she would excel. This breed is loyal, smart, funny, and loving. She will want and respect a dog-savvy pack leader. No passive push-overs for this gal. If you can provide Abby the confident, calm, dependable leadership that all dogs want and need, and if you would like to meet her, just contact SPOT. We can set that up for you. She will make a wonderful companion for the lucky family that adopts Abby. Come meet her!
