

## CAT RESCUE/ADOPTION

### URGENT

Tibby has lost her sibling and human parents. She is alone and very, very timid. She will not come out from under the bed.....would do best in a home that is quiet. We do not know how she will take to other cats (she did live with her sister most of her life) or dogs.

#### **Statistics:**

13 years old – adopted from FOCAS thirteen years ago along with her sister.

Female

Spayed

Shots up-to-date.....

Currently living in Chula Vista
